Because of the prominence of Hollywood in global media, an enormous amount of films, TV shows and popular songs are written in English.

English gives us access to multiple cultures of the world, through books, films, music and films, to name a few. The world has come to our close proximity through the use of the English language. American English and British English are the two arms of this language that helps us expand the horizon of knowledge and bring the world closer.

English has quite a big role in day to day life. English is used in banks, railway stations, bus stations, airways, educational sector, medical, private sector, etc. English is a trade language with other countries. Many students fly aboard for education and jobs. If their mode of communication is English they can manage their communication with the local people.
